

Asihati Hazaiti

About Me

Software engineer with four years of consulting experience across banking, retail, and e-commerce, now completing an M.Sc. focused on machine learning and robotics. Research interests centre on model-based reinforcement learning for continuous control, with prior work in applied deep learning for biomedical data. Equally comfortable shipping production systems and running research experiments.

Education

- 10.2024–
Present **Master of Science in Intelligent Adaptive Systems**, *University of Hamburg*, Hamburg, Germany
Courses: Bio-inspired Artificial Intelligence, Machine Learning, Research Methods, Knowledge Processing in Intelligent Systems, Biostatistics, Computer Vision, Robot Technology, Intelligent Robotics, Databases and Information Systems, Advanced Software Engineering.
Thesis (in progress): Model-based reinforcement learning for continuous control, building on the TD-MPC family of methods.
Extracurricular: AIESEC member, focused on international vocational volunteering.
- 09.2017–
06.2021 **Bachelor of Science, Software Engineering**, *Nankai University*, Tianjin, China
Core Courses: Algorithms, Linear Algebra, Probability and Statistics, Operating Systems.
Thesis: Browser-based multi-layer Gerber file viewer (JavaScript / HTML Canvas).

Publications

- 2026 **When May I Help You? On the Effect of Proactivity on Group Human–Robot Collaboration**, *RO-MAN 2026*
T. Vitry, V. Maeder, K. Edgeworth, **A. Hazaiti**, D. D. Ates, C. Gäde, J.-G. Habekost, D. Becker, S. Wermter.
IEEE International Conference on Robot & Human Interactive Communication (RO-MAN), 2026.
arXiv:2606.28469

Work Experience

- 06.2025–
Present **Software and Data Engineer**, *Simplience GmbH*, Hamburg, Germany
Building Ionic cross-platform mobile apps for iOS and Android with Angular and TypeScript.
- 07.2021–
06.2024 **Software Engineer, Consultant**, *ThoughtWorks China Ltd.*, Chengdu, China
Delivered features and technical leadership on major client engagements within agile teams. (Detailed projects below.)
- 2019 Summer **Data Analyst Intern**, *ChinaSoft International*
Intern Processed a century of climate records and visualised the results by geographic location.

Consulting Projects (ThoughtWorks)

- 04.2024–**Software Engineer**, *Client: Sephora, E-commerce*
06.2024
 - Expanded test coverage with unit and integration suites across the codebase.
 - Built Excel-based bulk-data tooling with EasyExcel for business operations.*Stack: Kotlin, Spring Boot, EasyExcel, Mockito, MySQL*
- 07.2023–**Tech Lead & Developer**, *Client: Electrolux, Retail Migration*
01.2024
 - Led project discovery, shaping the technical approach and delivering proofs-of-concept.
 - Migrated production data onto a new VTEX-based retail storefront.
 - Onboarded new team members and set up the initial codebase.*Stack: Kotlin, Spring Boot, VTEX, Node.js, PostgreSQL, Azure Functions*
- 12.2021–**Full Stack Developer**, *Client: Standard Chartered, Banking Security*
05.2023
 - **Identity & Access Management:** Modernised legacy authentication systems.
 - **Implementation:** Built SMS OTP, biometric login, and session management with OAuth2 and WebAuthn.
 - **Security:** Remediated vulnerabilities across global IT deployments.*Stack: Java, Spring Boot, LDAP, ForgeRock, OAuth2, WebAuthn, PostgreSQL*
- 07.2021–**Full Stack Developer**, *Client: Govt. Public Service, Our Marriage Journey*
10.2021
 - Built frontend and backend features for a public portal serving millions of users.
 - Delivered within a cross-functional team on a microservice architecture.*Stack: Kotlin, Spring Boot, React, PostgreSQL, AWS*

Skill Set

Languages	Java/Kotlin, Python, TypeScript/JavaScript, Golang, C
Web/Backend	Spring Boot, Angular, React.js, Node.js, HTML5/CSS3, RESTful/SOAP APIs
Data & AI	PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Spark, PySpark, Databricks
Databases	PostgreSQL, MySQL, NoSQL, LDAP, Elasticsearch
DevOps/Tools	AWS, Azure, Linux/Unix, Shell Scripting, JUnit, Mockito
Security	OAuth2, WebAuthn, ForgeRock Access Management, OWASP Top 10

Professional Training

- 02.2024 **Data Engineering Accelerated**, *ThoughtWorks*
Apache Spark on Databricks; big-data architectures.
- 10.2021 **ThoughtWorks University**, *ThoughtWorks*
Intensive agile software-delivery training.

Languages

English	Proficient (C1)	
Mandarin	Bilingual	Native-level proficiency
Kazakh	Native	
Uyghur	Proficient	

German B1

Intermediate

Hamburg, July 6, 2026
