About Me

Software developer and problem solver, passionate about data, robotics, and artificial intelligence. Quick learner and effective team player. Keen on applying computational methods to data, genetics, and robotics.

Education

- 10.2024–
Present **Master of Science in Intelligent Adaptive Systems, University of Hamburg, Hamburg, Germany**
Courses: Bio-inspired Artificial Intelligence, Machine Learning, Research Methods, Knowledge Processing in Intelligent Systems, Biostatistics, Computer Vision, Robot Technology, Intelligent Robotics, Databases and Information Systems, Advanced Software Engineering.
Extracurricular: AIESEC member, focusing on international vocational volunteer experiences.
- 09.2017–
06.2021 **Bachelor of Science, Software Engineering, Nankai University, Tianjin, China**
Core Courses: Algorithms, Linear Algebra, Probability and Statistics, Operating Systems.
Thesis: Browser-based multi-layer Gerber file viewer (JavaScript / HTML Canvas).

Work Experience

- 06.2025–
Present **Software and Data Engineer, Simpliance GmbH, Hamburg, Germany**
Developing Ionic-based cross-platform apps for iOS and Android using Angular and TypeScript.
- 07.2021–
06.2024 **Software Engineer, Consultant, ThoughtWorks China Ltd., Chengdu, China**
Worked within agile software development teams on key client projects. (See detailed project breakdown below).
- 2019 Summer
Intern **Data Analyst Intern, ChinaSoft International**
Analyzed century-long climate data and visualized results based on geographical positions.

Consulting Projects (ThoughtWorks)

- 04.2024–
06.2024 **Software Engineer, Client: Sephora, E-commerce**
○ Supplemented codebase with extensive unit and integration testing.
○ Developed business-related Excel templates using EasyExcel for bulk data operations.
Stack: Kotlin, Spring Boot, EasyExcel, Mockito, MySQL
- 07.2023–
01.2024 **Tech Lead & Developer, Client: Electrolux, Retail Migration**
○ Led the project discovery phase; provided technical solutions and PoCs.
○ Migrated production data to a new VTEX-based retail web store.
○ Mentored newcomers and established the initial codebase scaffold.
Stack: Kotlin, Spring Boot, VTEX, Node.js, PostgreSQL, Azure Functions

- 12.2021– **Full Stack Developer**, *Client: Standard Chartered, Banking Security*
 05.2023 ○ **Identity & Access Management:** Transitioned legacy authentication systems to modern solutions.
 ○ **Implementation:** Built features for SMS OTP, biometric login, and session management using OAuth2 and WebAuthn.
 ○ **Security:** Remediated vulnerabilities across global IT deployments.
Stack: Java, Spring Boot, LDAP, ForgeRock, OAuth2, WebAuthn, PostgreSQL
- 07.2021– **Full Stack Developer**, *Client: Govt. Public Service, Our Marriage Journey*
 10.2021 ○ Developed frontend and backend features for a portal serving millions of users.
 ○ Worked in a cross-functional team using microservice architecture.
Stack: Kotlin, Spring Boot, React, PostgreSQL, AWS

Skill Set

Languages	Java/Kotlin, Python, TypeScript/JavaScript, Golang, C
Web/Backend	Spring Boot, Angular, React.js, Node.js, HTML5/CSS3, RESTful/SOAP APIs
Data & AI	Spark, PySpark, Databricks, Pandas, NumPy, TensorFlow, PyTorch, Scikit-learn
Databases	PostgreSQL, MySQL, NoSQL, LDAP, Elasticsearch
DevOps/Tools	AWS, Azure, Linux/Unix, Shell Scripting, JUnit, Mockito
Security	OAuth2, WebAuthn, ForgeRock Access Management, OWASP Top 10

Professional Training

- 02.2024 **Data Engineering Accelerated**, *ThoughtWorks*
 Apache Spark on Databricks, Big Data architectures.
- 10.2021 **ThoughtWorks University**, *ThoughtWorks*
 Intensive agile software delivery training.

Languages

English	Proficient (C1)	
Mandarin	Bilingual	Native level proficiency
Kazakh	Native	
Uyghur	Proficient	
German	B1	Intermediate
